## Introduction

This catalogue of examinations and other tests is an addendum to the current Curriculum for the Sport Management at EA Lillebaelt and covers all examinations and other tests conducted (see Fronter/SEM INFO or website for curriculum).

Examinations are conducted all year round, but the majority take place in **January** and **June**.

This catalogue contains descriptions of examination formats, admission requirements, and assessment and consequences of not passing for each exam, as well as descriptions of different types of test used at the study programme.

You're automatically signed up (enrolled) all exams. It's not possible to unsubscribe an exam unless you're sick and have a medical certificate from your doctor. If you don't show up you've used an attempt.

For ALL general rules about exams at EA Lillebaelt read carefully EA Lillebaelts "Examination Regulations 2016" (Fronter/SEM INFO).

## Description of mandatory learning activities.

As a precondition of taking one or more exams, students at the study programme are required to receive approval for a number of "Mandatory Learning Activities".

***If these Mandatory Learning Activities are not approved, the student cannot attend the examination and will have used an examination attempt.***

Also read Curriculum/Studieordningen.

The student is automatically signed up for the next examination, and will still need to fulfil the conditions in order to be able to attend the exam.

The Mandatory Learning Activities vary from educational element to educational element, and can consist of e.g. participation requirements, presentations or assignments.

## Description of the Study Start Test.

EA Lillebaelt conducts a study start test on the full time top-up PB study programme in Sport Management. A student must fulfill the study start test requirement in order to stay enrolled at the study programme, cf. the ministerial order about exams section 9.

<b>Study Start Test</b>
<b>Timing:</b> The study start test will take place during from Friday week 35 + week 36 + 37. The Study Start Test must be conducted no later than two months after the commencement of the study programme.
<b>Form:</b> The test is based on attendance, participation and presentations. The students must participate in scheduled activities $\geq 80\%$ during the first 2 weeks.
<b>Assesment:</b> Approved/Not approved. The student must receive the result of the test no later than two weeks after the test has been conducted. The student has two attempts to fulfill the requirements of the test.
<b>Admission requisite:</b> None
<b>Consequences of not passing:</b> If the student does not fulfill the study start test requirements in the first attempt, it is possible to participate in a "re-examination". The new test is defined as a written report of 17-20.000 keystrokes (one student) or 27-33.000 keystrokes (two students). Same topic. Research Question has to be approved of a teacher/supervisor. This new test has to be handed in no later than Friday 12 o'clock, week no. 40. NB: If the new test is not approved, the student cannot continue on the study programme and his/her enrolment will consequently be cancelled, cf. the ministerial order about exams section 9.
<b>Specific for the Study Start Test:</b> The study start test is not covered by the regulations about examination complaints; cf. the ministerial order about examinations section 9, subsection. 4. EA Lillebaelt can grant a dispensation from the appointed time required to fulfill the study start test requirement. Dispensations can be granted in cases of serious illness, child birth or unusual circumstances. Such cases must be documented.

## Description of the Midterm Trial Test.

EA Lillebaelt *consider* conducting a Mandatory Interdisciplinary Midtterm Trial Test (mandatory learning activity) on the full time top-up PB study programme in Sport Management. Follow info. at Fronter.

<b>Interdisciplinary Mid term Trial Test</b>
<b>Timing:</b> The Midtterm Trial Test will take place during week no. 39+40.
<b>Form:</b> The test can vary in form from year to year, but usually it's based on group work. It is also based on attendance, participation and presentations. The Midtterm Trial Test is preparation for 1 <sup>st</sup> Semester Interdisciplinary Exam.

**Assesment:** Approved/Not approved. The student must receive the result of the test no later than two weeks after the test has been conducted. The student has two attempts to fulfill the requirements of the test.

**Admission requisite:** None

**Consequences of not passing:** If the student does not fulfill the Mid term Trial Test requirements in the first attempt, it is possible to participate in a "re-examination". The new test is defined as a written report of 14-17.000 keystrokes (one student) or 21-25.000 keystrokes (two students). Same topic. Research Question has to be approved of a teacher/supervisor. This new test has to be handed in no later than Friday 17<sup>th</sup> November at 12 o'clock (week no. 46). NB: If the new test is not approved, the student cannot continue on the study programme and his/her enrolment will consequently be cancelled, cf. the ministerial order about exams section 9.

**Specific for the Midtterm Trial Test:** The Midtterm Trial Test is not covered by the regulations about examination complaints; cf. the ministerial order about examinations section 9, subsection. 4. EA Lillebaelt can grant a dispensation from the appointed time required to fulfill the Midtterm Trial Test requirement. Dispensations can be granted in cases of serious illness, child birth or unusual circumstances. Such cases must be documented.

## Description of Internship Examination.

### 1 No later than 8 days after commencement of the Internship:

#### 1.1 Listing Learning Objectives

The student must have approved the learning objectives within 8 days into the internship. The learning objectives must be presented in relation to *knowledge, skills* and *competencies* listed in the curriculum and, after approval, added to the logbook document on Fronter.

It is the supervisor who approves the learning objectives.

It may require help and support from the supervisor to prepare the learning objectives, so it may not necessarily be expected that these are approved at the first attempt.

### 2 During the internship

#### 2.1 Weekly e-mail to the lecturer regarding the logbook

There is a logbook template on Fronter which the student completes and submits duly completed to the supervisor at least 7 times and at least every 14 days during the internship. Work on the same document is to be carried out throughout the training period, so continual writing on this document is done when sending a new update to the supervisor.

The supervisor naturally reads the updates and answers the forwarded e-mails, if needed. However, the supervisor has a 3-4 week vacation period, so an increased response time may occur.

The following questions must be answered by the students for each update of the document:

- How has your work during the period been related to your learning objectives?
- Which tasks would you like to learn more about?
- Have you experienced something in the period that has puzzled you?
- Who have you met in the period that you would like to have in your network?
- Have you got ideas that might be interesting to pursue your bachelor project?

## **2.2 Facebook group to share experiences, frustrations etc.**

The students have an (internship) group on Facebook where they are invited at least once a week to share a story about their internship. The group may of course also be used to describe the challenges of the internship and to seek good advice. It is the students' responsibility to make this group.

## **3 At the end of the internship**

### **3.1 Reflection / Evaluation of learning**

The students submit **no later than Friday the 1<sup>st</sup> of November** 2018 an evaluation/reflections of the internship at max. 12.000 characters, which are evaluated based on the learning objectives and reflected on the overall learning in the internship.

**The final reflections are handed in on Wiseflow.** Reflections must be approved by the supervisor and is a requirement for participation in the exam, but they are not included in the assessment.

Evaluation/reflection document must contain:

- Reasons for the choice of learning objectives
- Reflections on whether and how the objectives have been reached
- Reflections on how the internship has made the students ready for the labour market after the education
- Reflections on how the learning can be used in connection with the Bachelor project

**The document with the ongoing reflections is to be added as an appendix**

The supervisor provides a written feedback on the reflection document before the oral exam.

## **Approximately one week after the internship: Trade Fair and Oral Exam** (week 45, November 2018).

### **4.1 Trade Fair**

**Each student must make an "Exhibition Stand"** where the internship is to be presented. A uniform from the internship and other physical "evidence"/artefacts that can clarify/give an idea of the internship and work tasks are allowed.

The "*first semester-students*" at PBA Sport Management and other students will attend the trade fair and get inspiration for their own internship search.

Participation in the fair is a requirement for being able to go to an oral examination.

In case the student, *due to extended internship abroad, cannot not participate in the fair*, then he/she must forward a PowerPoint presentation before the start of the fair,

which will run on a projector during the fair. There will be some formal requirements for the setup of PowerPoint.

#### **4.2 Oral exam**

**20-minute exam** during which the student must present for 8 minutes (then 7 minutes for questions and 5 minutes for feedback). **Here a problem area from the company is presented and a solution based on a professional approach to solving the problem. The solution must be presented as a concrete action plan with considerations of both gains and costs for the company. All subjects from the program can be used.** At the latest, 2 days before the exam, the student must send her/his presentation to the supervisor.

#### **4.3 Proposed timetable for the trade fair day:**

08:00 to 09:30: Setting up the exhibition stand

09:30 to 11:00: Trade fair

11.00 to 12.00: Cleanup and lunch

From 12.00: Oral examination - Plan will be uploaded at Wiseflow
